FIG. 3

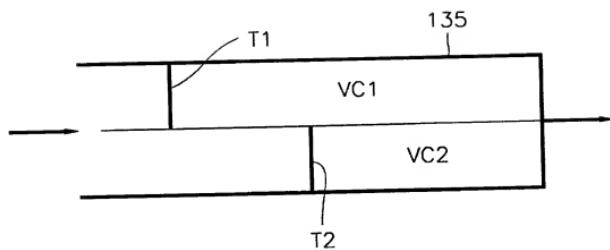

FIG. 4

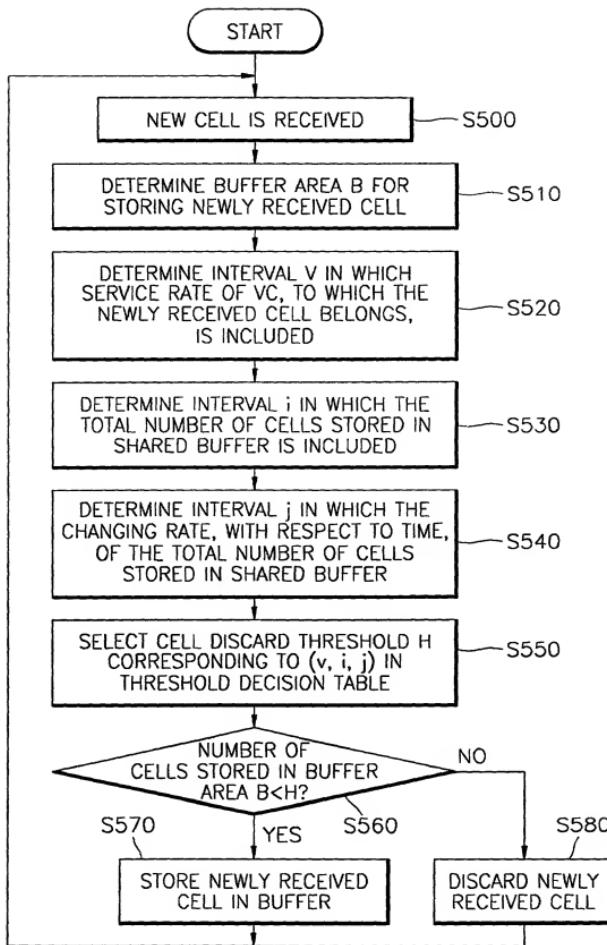

The diagram shows a table structure with two rows and multiple columns. The first row has two columns: the first is labeled  $D(t)$  and the second is labeled  $Q(t)$ . The second row has multiple columns, with labels  $b_1, b_2, \dots, b_n$  above them. The first column of the second row is labeled  $d_1$ , the second is  $\vdots$ , and the last is  $d_k$ . Arrows point from the labels 32 and 42 to the first and second columns of the second row, respectively. Arrows also point from the labels 31 and 41 to the last two columns of the second row.

$D(t)$	$Q(t)$	$b_1$	$b_2$	$\dots$	$b_n$
		$d_1$			

32      42

31      41
